Hi Scott,

I am writing regarding the property located at 2401 Corporate Center Dr. It is directly across from the 1300 Lawrence Drive Project.

After speaking to you today regarding this project, it seems that the proposed building will fit in well with the neighboring buildings. I also appreciate healthier oak trees being planted to replace the volunteer oak trees currently there. My only concern, at this point, is the height of the trees directly across the street. I understand that all the tall trees will be removed and replaced. I'd like the replacements to be 20' because we enjoy the "green screen" that is currently there, and taller trees will provide a more balanced and pleasant view of any future building.

Best Regards

Deborah
